WOOD TO BE CHIEF OF STAFF

Maj. Gen. Leonard Wood, now in command of the department of the east, will be the next chief of staff of the army. Secretary Dickinson made this announcement recently.

Gen. Wood will succeed Gen. J. Franklin Bell, whose term at the head of the general staff will expire next spring.

Gen. Wood's rise in the army has been one of the most spectacular in its history. Entering the medical corps as an assistant surgeon in 1886, he has been promoted by leaps and bounds, so that, next April, when he assumes his new duties at the war department, he will be at the head of the local army. He is only 49 years of age.

Attention was called to Wood before he had been in the army six months. While serving in the capacity of assistant surgeon he voluntarily carried dispatches through a region infested with hostile Indians, making a journey of 70 miles in one night and walking 30 miles the next day. In the same campaign he took command of a detachment of infantry without an officer when an encounter was hourly expected with Geronimo. For his action in this campaign he was awarded a medal of honor in 1898.

During the Spanish-American war he was colonel of the Rough Riders. For his services at Las Guadaluas and San Juan Hill he was made a brigadier-general. Later he was promoted to be major-general and was made governor general of Cuba.

After the withdrawal of the American forces from Cuba Gen. Wood was sent to the Philippines, where he finally became commander of the Philippine division.

Although Gen. Wood always has been a capable officer and has fulfilled his duties as a soldier, it was the Roosevelt influence that pushed him forward with leaps and bounds. As is well known, when Theodore Roosevelt likes a man, he likes him, and when he dislikes a person he hates him. There is no half-way business about "Teddy." Therefore, when Roosevelt formed a friendship for Gen. Wood there was nothing in the presidential power that he would not do to advance his friend.

Considerable ill feeling was caused in the army by the way Gen. Wood was jumped over the heads of other officers who outranked him, but he was Roosevelt's friend and the others had to stand for it.

JOHN D., JR., A GRAND JUROR

John D. Rockefeller, Jr., heir to the greatest fortune in the world, has been earning \$3 a day as a grand juror here. He was appointed foreman of the special body called before Judge O'Sullivan to investigate the "white slave" traffic in New York City. He has had two weeks of work and at the end received a voucher for \$24. That will be as much as his regular income for a few minutes.

Charged with the task of inquiring into the traffic in women, with a view to rigid prosecution or an end to sensational slanders against New York City, Mr. Rockefeller entered the work with the Rockefeller spirit, which knows no failure.

Charles S. Whitman, the new district attorney, began a similar inquiry on his first official day in office. He assigned a special assistant to examine witnesses and in a statement given out urged that the public come forward with any and all evidence that such traffic exists.

When Judge O'Sullivan observed Rockefeller's name among those drawn for the special grand jury he immediately asked him to assume the foremanship.

Rockefeller begged to be excused, pleading ill health and a stress of personal business matters.

"We have a very important inquiry to pursue," said Judge O'Sullivan, "and I believe you owe the community this duty."

Rockefeller withdrew his excuse, was sworn in as foreman and took immediate charge.

He met with the special grand jury each day during the month, or until the body was ready to make its report to the court.

WORKING TO FREE HUSBAND

Charles W. Morse, formerly ice king of New York, was barely inside the federal prison walls at Atlanta, Ga., before his wife, who has sacrificed her home, jewels and sealings to help him in his battle for freedom, began work to bring about his pardon by the president.

Mrs. Morse has started a petition for clemency and says she will work night and day to get signers. She has received letters from many persons she never heard of before, offering aid and promising to sign the petition now being circulated in several parts of the country.

Morse has been assigned to the tailor shop, where his work will not be hard.

He is registered as convict No. 2,814 and occupies a steel cell not in the least different from those to which are assigned the several hundred other prisoners. His immaculate tailored garments gave way to a regulation suit of stripes. The distinguished prisoner did not escape the Benthall expert, the prison photographer, the regulation bath and the barber.

Mrs. Morse followed her husband to Atlanta to visit him in his cell and returned to New York to seek a pardon for him. She has been the steadfast aid of Morse throughout his indictment and conviction. Early in his struggle against prosecution she sold her furs and other personal property to raise money for him. Mrs. Morse is the second wife of the convicted and sentenced New York financier and before her marriage to him in 1901 was Mrs. Clemence Cowles Dodge.

THE NEW KING OF BELGIUM

The new king of Belgium, formerly Prince Albert, is 29 years of age and stands six feet three inches in his stocking feet. The new king is said to be in every way the antithesis of his notorious uncle. Despite the fact that his uncle and his father did not speak, he contrived in a diplomatic way to retain the friendship of both, and at the same time to propitiate the powerful socialist element in his prospective kingdom.

The prince's marriage to Duchess Elizabeth of Bavaria, daughter and assistant of Duke Charles Theodore, the celebrated oculist, who died recently, was a love match pure and simple. The married life of the two has been free from scandal.

The new king is an athletic young man and has undergone extensive military training under both Baron Wahis, who was one of the principal officers of the army of Emperor Maximilian of Mexico, an uncle by marriage of the prince, and Gen. Harry Jungbluth, a Belgian officer, who has English blood in his veins.

He already has been pledged to stop all atrocities in the Congo. Inasmuch as the Congo will become the property of the nation next year, reforms may soon be accomplished.

Prince Albert visited America for eight months in 1898.

SILHOUETTES OF WESTERN CANADA

The man from Iowa began to talk land before the train was well out of the C. N. R. depot in Winnipeg. The talk began in rather wide circles. The rush to the land, the bumper crop, the system of summer fallowing pursued in the semi-arid districts, were all discussed, and then, with a sort of apologetic smile, the Iowa man said: "I'm a bit interested in this country myself. Some of the men down home got a few sections up here along this line, and I'm going to have a look at them. Never been in Canada before—(It is curious how these mid-western Americans pronounce the name of the Dominion as if it was "Can'dy")—but if it looks good we will be up to stay next fall."

"You see, it's like this," said the man from Iowa—quite manifestly continuing an argument that had been going on in his mind for some time. "Back in our State land has become dear. Anybody wanting to sell can get \$70 or \$80 an acre for it, and every farm that's offered is snapped up. In Saskatchewan we have just as good land that cost us \$11 and \$12, so that a man can take up five or six times as much there as in Iowa on the same investment of money."

"It isn't the money, though, that brings most of us up from Iowa. I'm not sure that money would be enough. The 'invasion' is a family affair. We have no chance of keeping our sons around us back home. They have to leave the farm and go into the big cities of the neighboring States to get work. To keep them on the farm and in touch with us, we come up here and make little colonies with the children around us, on homesteads or bought land. This makes it easier for the farmers back there in Iowa to get land for the stay-at-homes. The families that come to Canada are kept together and the families that buy the farms they leave are kept together, too. There won't be any slackening of the rush, either, for they still raise big families back in Iowa."

One could almost see the mental process of this typical American farmer in defending a step that meant a new flag, a new allegiance, a new land, and new associates. To abandon Old Glory of the Declaration of Independence for a good thing in cheap land would hardly be playing the game, but to go out into Saskatchewan to "keep the family together" was another and a quite higher motive.

Why seek too closely to analyze the reasons for the greatest land trek in the history of America? It is enough to know that the sons of the frontiersmen of Iowa, and Kansas, and Minnesota—the best blood of the mid-west—are pouring into the Canadian west in an ever-increasing stream, and are learning that "God Save the King" and "My Country 'Tis of Thee," are sung to the same tune.—Toronto (Ontario) Globe.

Temperamental Toilet Table.
A very aged Englishman many years ago gave this advice to his daughter in a letter as to what a lady's dressing table should contain:

The best beautifier a young lady can use is good humor. The best renovator truth; the best rouge is modesty; the best eyewater is the tears of sympathy; the best gargle for the voice is cheerfulness; the best wash for smoothing wrinkles is contentment; the best cure for deafness is attention; the best mirror is reflection, and the whitest powder is innocence.

COUGHED ALL NIGHT

Till This Recipe Was Tried. Cure Followed in 5 Hours.

A prominent medical man, who suffered with a severe cough and cold on the lungs, often being kept awake all night, and weakened by loss of sleep, finally discovered a simple formula which will cure any cough in five hours by the clock. It is a laxative tonic cough syrup which can be made at home by anyone and the formula is here given for the benefit of those who pass sleepless nights in painful paroxysms. Those who have tried it say it is magical and beats any high-priced, slow-acting cough medicine ever sold.

Mix in a bottle one-half ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Take twenty drops every half hour for four hours. Then take one-half to one teaspoonful three or four times a day. Give children less according to age. This will tone up and rid the system of deep-seated coughs every time.

One Idea of Economy.
"What do you mean when you tell the people they ought to economize?"

"I mean," said Mr. Dustin Stax, "that they ought to go slow in patronizing most business enterprises in order that they may have more money to spend with mine."—Washington Star.

CHANCE TO ACQUIRE AFFINITY

Atchison (Kan.) Woman Has an Inconvenience She Is Willing to Part With.

If there is any woman in this town, or in any other, who sees her affinity in my husband, this is to notify her that she can have him by calling at my home, the Hilltop, Atchison, Kan., at any hour she may choose. He grumbles at his meals, he blows his nose into the grate, he puts his feet on the parlor chairs and his head on the parlor cushions; he tells callers that his father was a poor man, and that he never "had any schooling;" he contradicts my statements when I tell of my kinship to the real prominent people, and if I don't watch him he "visits" with the hired man, and once asked the milkman to dinner! If there is any woman who sees her affinity in HIM, let her hang around my house a few minutes while I ask him for Christmas money. Then let her take him away if she still wants him.—Mrs. Lyander John Appleton. —Atchison Globe.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

WESTERN CANADA No Matter

What J. J. Hill, the Great Railroad Magnate, Says About Its Wheat-Producing Power.

"The greatest need of this country (United States) in another generation, or two will be the production of homes for its people and producing sufficient food for its people. The day of our primitive existence as a wheat exporting country are gone. Canada is to be the great wheat country."

This great railroad magnate is taking advantage of the situation by extensive railway building in the western United States of Western Canada.

Upwards of 125 Million Bushels of Wheat were harvested in 1909. Average of the three previous years, Saskatchewan and Manitoba will be upwards of 23 bushels per acre. From homesteads of 160 acres, and adjoining pre-emption of 160 acres, at \$4 per acre, are to be had in the choicest districts. Schools, convenient, climate excellent, soil the very best, railways close at hand, building materials cheap, and way to get and reasonable in price, water easily procured, mixed farming a success.
